'AX LEVY ERRORS AND A REMEDY

Auditor Tweedale Suggests Changes in the Methods.

ACCOUNTING IS CALLED FAULTY

Would Transfer Ledgers from Assessor's Office to that of Tax Collector-Proposed to Throw the Responsibility for Figures in Levy on that Official.

Because of an alleged \$8,000 clerical eror in the current personal tax levy, and charges of similar mistakes in the evies of previous years, the Commis-sioners yesterday appointed a committee o consider certain changes in the meth-ds of operation of the offices of the tax ollector and the District assessor. The Commissioners appointed the committee upon the recommendation of Auditor weedale, which was embodied in a reurging important changes in the

committee is composed of Assessed dale, Corporation Counsel E. H. Thomas, Assistant Assessor James T. Petty, Col-lector of Taxes Charles C. Rogers, Dr. William Tindail, "cretury to the Board of Commissioners, and Danlel E. Garges, chief clerk of the engineering depart-ment.

Tweedale's Recommendations.

ment.

Tweedale's Recommendations.

Auditor T cedale recommends that the tax ledgers now in the office of the assessor, as well as the employes required to keep the records, be transferred to the office of the tax collector. At present the responsibility of the two offices is divided. When a mistake has arisen in the past there has been some dispute as to who was responsible for it. Under the proposed plan all the responsibility is thrown on the tax collector. Mr. Rogers expressed approval of the proposed plan. He has long feit the need of such a change, and has suggested it to District officials.

Under the proposed change the assessor will be required only to prepare real estate and personal tax rolls or duplication. This roll, showing the valuation of property, will then be submitted to the Commissioners for approval, after which it will be sent to the collector of taxes, so that he may prepare this tax ledgers for the ensuing year. At present the tax bills are prepared by the assessor, delivered to the collector, and presented for payment to the taxpayer. Each bill has a coupon, which is detached by the collector, and presented for payment to the taxpayer. Each bill has a coupon, which is detached by the collector, and presented for the collector, and after entry upon the books of the office, transmitted to the assessor as the basis of the credit to be placed to the account of the taxpayer.

FUR SEALS PLENTIFUL ommerce and Labor Experts

Not Fear Extinction.

According to reports made to the De-partment of Commerce and Labor to-day the fur seal berd on the Pribliof Islands of Alaska is in no danger of extinction, now that there is an international agreement, to which the United States, Russia, and Japan are parties, providing for the abolition of pelagic sealing.

W. I. Lembke, who is the agent of this government on the islands, reports that the herd numbers 132,279, and that 12,000 two-year-olds and upward were killed last year.

two-year-olds and upward were killed last year.

Lembke insists that no harm can come to the herd from land killing under government supervision, and thus takes issue with the House Committee on Expenditures in the Department of Commerce and Labor, which is trying to secure the passage of a resolution by Congress proylding for an absolutely closed season of fifteen years.
